REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicant's arguments on pages 9 and 10 of his amendment stating that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a mattress assembly *constructed substantially of plastic material* and comprising the particular structural arrangement of a mattress foundation further comprising a generally planar and essentially rigid top surface having an upper side and a lower side, the lower side of the top surface *including at least one reinforcing fin oriented perpendicularly to the lower side and extending along a portion of the lower side*; at least one essentially rigid sidewall having a lower edge and at least one pair of grooves disposed on opposing portions of the at least one sidewall, the sidewall extending substantially along the perimeter of the lower side of the top surface and depending downwardly from the top surface; and *at least one brace connecting opposing portions of the at least one sidewall and having end sections configured to latchingly engage with the grooves*, as explicitly recited in Applicant's independent claims 1 and 42. With regards to the prior art, Gaboury et al. '397 teaches the use of a plastic bed foundation provided with a plurality of identical support braces (26) as opposed to teaching the use of a mattress foundation having the distinct structural features of at least one reinforcing *fin* included in and extending along a portion of the lower side of the mattress foundation top surface and at least one *brace* connecting opposing portions of the at least one mattress foundation sidewall as specifically recited in Applicant's claims. Hence, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
